Hi. My name is Dave (alias the Lone Ranger), and I just moved to Chichester. I'd like to tell you about the new video repair service I'm opening here.

Silver Bullet Video has been in the planning for two years now and has finally become a reality. I've been working in electronics for a long time and became interested in video two years ago. I spent a year working with the Videoheads in Amsterdam, then attended Sony video repair school and spent a few months working as a technician in New York. Now we're ready to live and work here in the Catskills.

Besides being the only video repair service in the area, I am planning on having the lowest prices possible. As a Grand Opening Special, all labor charges until September 15 will be \$5.00 per hour (compared to \$15.00 per hour in New York City). Silver Bullet will be repairing 1/2" video equipment, doing various modifications, and manufacturing accessories and equipment.

We are located at "Stony Clove Farm" at the north end of Chichester. When you enter the Stony Clove Farm, there is a two-story building directly in front of you. We are upstairs in Apt. #2.

Hope to see you soon.

Hi,

That was 1973.

I stayed at Maple Tree farm for a month around May of 1973. I went to Sony School in NYC in June of 1973. I then worked at CTL for June, July, and August. Then I think in September 1973 I moved up to Chichester and set up Silver Bullet Video.

Then I sent out fliers to a lot of places, including ETC, offering repairs and modifications, and selling battery packs. You guys bought some battery packs that I built and delivered, I believe, in November 1973. Then a week or so later Ralph offered me the job in Binghamton, which I accepted about a week after that. So by December I was moving to Binghamton and started at the TV Center in January 1974.

The ETC address was written there because that was after I accepted the job, but before I left Chichester, and before I found the apartment in Kirkwood. So I must have written that on the flier in late November or early December 1973.

I have some copies of various Silver Bullet fliers in my files here. I'll try to dig them out and scan them.

I had a blast at the panel and afterwards. I'm glad they got the video up so quickly. I've told my mother about it so she may watch it soon.

...Dave
